

Montana Associations of REALTORS® selects Lone Wolf Transactions as member benefit for 2022

Partnership gives members continued access to real estate's leading digital transaction management tools at zero cost

Cambridge, ON and Dallas, TX – September 15th, 2021 – Lone Wolf Technologies (“Lone Wolf”) and Montana Association of REALTORS® are pleased to announce a new agreement that gives their 5,606 members the option to choose their preferred transaction management solution, either Lone Wolf Transactions (zipForm Edition) or Lone Wolf Transactions (TransactionDesk Edition).

"We're excited to be able to give our members the choice to work with their preferred transactions solution—zipForm Edition or TransactionDesk Edition," Kaaren Winkler, Chief Executive Officer at Montana Association of REALTORS®. "In today's real estate climate, it's our priority to equip our members with all the tools they need to work with clients online throughout the entire transaction process."

The entire real estate process has become more digitized, especially during the pandemic. By providing both editions of Transactions, Montana Association of REALTORS® is ensuring their members have access to digital forms and complete transaction management tools to run their business in a rapidly changing industry, plus the power to choose which transactions solution best suits their workflow and clients' needs.

"We're thrilled to partner with Montana Association of REALTORS® to continue providing Transactions at no cost to their members," said Jimmy Kelly, CEO of Lone Wolf Technologies. "We've been working hard to help real estate agents and brokers keep their access to the most extensive end-to-end digital solution—Transactions. We're excited to continue our mission to simplify real estate through our continued partnership with Montana Association of REALTORS®."

Lone Wolf has made some exciting enhancements to their Transactions solutions this year. With a newly redesigned Authentisign—real estate's leading eSignature solution—as well as additions such as Digital Title Orders that helps agents work with their preferred title agent digitally. With recent acquisitions of Cloud Agent Suite, HomeSpotter, LionDesk, Terradatum, and Propertybase, Lone Wolf is positioning itself in the real estate industry to become the most comprehensive suite of tools for real estate agents, brokers, Franchisors, Associations, and MLSs. Montana Association of REALTORS® members will continue to be able to take advantage of future integrations with Transactions as they fight to rise to the increasing consumer demands.
